

## TecLines TKM014B Keystone USB-C 3.1 Gen 2 module

### Description

The USB-C 3.1 Gen 2 Keystone (TecLines TKM014B) is standardized for installation in a common custom module frame. Via simple snap-in mounting, the Keystone module can be inserted into the empty space of a power strip / patch panel. Without additional long cables, smartphones, tablets, laptops and other devices can be quickly charged (fast charging) and supplied with data at the desktop connector panel. Office workstations, meeting rooms, exhibition halls, hotels or private desks are among the ideal locations. The connector has a data transfer rate of 10 Gbit/s, supports Power Delivery (PD) up to 60W as well as Ultra HD resolutions up to UHD 4K/60 Hz (3840x2160). The front and rear of the USB-C charger are each equipped with a socket and can alternatively be used to easily extend two cables.

### Key features

Front:	USB-C jack
Rear:	USB-C jack
USB Standard:	USB 3.1 Gen 2 SuperSpeed+
Data transfer rate:	10 Gbit/s
Power Delivery:	Up to 60 W
Dimensions (WxHxD):	33.4 x 17.2 x 28.9 mm
Combinable:	With all Keystone-enabled custom module devices
Suitable for:	Smartphone, tablet or notebook
Color:	Black
